

MYBIBLIOTHEQUE

Smarter, Faster • eTrainer • eLibrary • ePublisher

The Reading Lab

Honing English Language Competency for
Global Learners

About myBibliotèque English Training: myBibliotèque is the Country's First eTrainer, eLibrary, and ePublisher dedicated to honing English language competency. Because each person has a distinct learning style, standard classroom lectures do not work for everyone. myBibliotèque offers non-conventional methods to acquire English fluency, increase reading speed, and improve comprehension through guided development, individualized verbal assessments, and customized learning plans.

Specialized English Solutions: Our programs are specially designed to empower **foreign nationals**—including Korean, Japanese, Chinese, and other non-native English speakers—seeking to master professional English for business, corporate, or career advancement. Additionally, our services are ideal for learners who have taken **gap years in school** and need to catch up or acquire English fluency in the fastest, easiest, and most effective way possible. We make rapid progress achievable through individually designed, custom-tailored curriculums that focus directly on your exact learning gaps.

WHY CHOOSE MYBIBLIOTHEQUE?

Individualized Assessment

Unlike "boxed-in" generic curriculums, we perform individualized assessments to remarkably shorten your learning journey.

Human Intuition

Unlike AI programmed to set protocols, we provide human intuition and subjective assessment to pinpoint your exact roadblocks.

Targeted Efficiency

By mapping out the quickest path tailored to your base level, what usually takes years can be achieved in months or weeks.

READING LAB TRAINING PACKAGES
